

## Washington Northeast Supervisory Union Core Principles

Decisions of the Boards and Administration of Washington Northeast Supervisory Union will be guided by the following core principles:

1. We will make decisions based on the greatest educational benefit for all students.
2. We will act on our belief that all students can learn by providing all students with an equal opportunity to learn and access to challenging curriculum.
3. We will work to assure no student falls through the cracks.
4. We will prepare our students to be competent, caring citizens both locally and globally.
5. We will foster development of lifelong transferrable skills: patience, leadership, and social skills.
6. We will model empathy, diversity, transparency, and working cooperatively to reach collaborative, creative solutions.
7. We value families as partners and encourage participation and collaboration.
8. We will use our size to augment our effectiveness.
9. We will teach and practice responsible stewardship of our resources: environmental, fiscal, and human.
10. We will develop and maintain community connections.
11. We hold ourselves, staff, and students accountable to set and meet goals.
